

Tourvest Launches COVID-19 Testing Product

We are excited to share with you the launch of Tourvest Verified's Zarpath COVID-19 testing product, giving you the ability to offer a testing concierge service to your guests. Established in 2017, Zarpath Laboratories provides precise diagnostic testing to assist doctors in their diagnosis and treatment of patients.

The services include:

- Concierge services
- Drive-through services at selected testing points across the country
- Quick results – A maximum of 48 hours to produce results
- Antibody testing offered on request – A requirement for some airlines

Why include this in your service to your clients?

- Guests save time and effort when travelling
- Takes the stress out of travel and booking a test can be done at their hotel
- Zarpath is available countrywide in all major cities

How does it work?

- We will book an appointment for your client 24 hours prior to requiring a test.
- All bookings must be scheduled at least 48 hours prior to departure; urgent and last minute requests will be handled on an ad hoc basis.
- Using the above required information, the appointment will be scheduled, after which a nurse-on-wheels will be dispatched.
- Results will be submitted electronically to the consultant within 48 hours

Cost:

- Concierge services R1 565.00 per person
- Drive Through services R1063.00 per person

Special note: Vouchers can also be utilized at any Zarpath drive-through testing facility.

Appointments are available 7 days a week from 8am to 5pm. Valid until 31 Oct 2021.
